

Comfort. Care. Hope.

The Hotel Dieu Shaver Health and Rehabilitation Centre will be the recognized leaders in Rehabilitation in Niagara by delivering an exceptional patient and family experience through the integration of quality care, technology, education and advocacy. We will be known for delivering a broad range of integrated health care solutions.

INPATIENT PROGRAMS

ACTIVE REHABILITATION

Time-limited, high intensity, Interprofessional rehab plan of care, provided to patients that have various musculoskeletal or neurological conditions.

COMPLEX CARE REHAB LOW

Patients are admitted from an acute care hospital after an acute event with the goal of improving functional ability to facilitate a safe return to the community.

SHORT TERM MEDICALLY COMPLEX

Patients transferring from acute care with complex medical conditions. The Short Term Medically Complex helps patients and their families identify strategies that support a successful discharge back into the community.

END OF LIFE

Provides pain and symptom management combined with emotional and spiritual support to patients at end of life.

MISSION

Hotel Dieu Shaver Health and Rehabilitation Centre is a community of holistic and compassionate care for all those who seek our service and those who serve. As a Roman Catholic facility, grounded in God's love, we provide the resources and care to enable people to reach their optimal level of health and wellbeing.

PASTORAL SERVICES

For many people, spiritual and religious care is part of their everyday life; however, this awareness or need may intensify during a hospital admission. Pastoral Associates/Chaplains are committed to serving all patients, loved ones, staff and volunteers at Hotel Dieu Shaver regardless of faith or creed. As part of the healing process which complements your total care, a chaplain may assist with coping strategies and provide confidential counsel to those in distress as well as be available for prayer and rituals.

OUTPATIENT NEUROLOGY PROGRAMS

OUTPATIENT STROKE

Provides specialized interprofessional treatment to patients with rehabilitation goals following the diagnosis of stroke. In partnership with the client, this program offers treatment and education in both individual and group settings.

GENERAL NEUROLOGY

Provides interprofessional care for clients with a variety of diagnoses such as spinal cord injury, multiple sclerosis and traumatic brain injury. Interventions are offered based on client-driven goals and may be provided in an individual or group setting.

SPEECH LANGUAGE PATHOLOGY

Provides rehabilitation services to adults exhibiting acquired communication difficulties including disorders of motor speech, aphasia, and cognitive communication.

Providing a delivery system worthy of the patients' and families' trust.

OUTPATIENT PROGRAMS CONTINUED...

ORTHOPEDIC PROGRAMS

AMPUTE E PROGRAM

Provides specialized, interprofessional outpatient rehabilitation services to individuals following the amputation of a limb. Each client receives an individually designed treatment and skills training program.

ARTHRITIS PROGRAM

Provides specialized, interprofessional outpatient rehabilitation services for individuals with complex arthritic conditions. The program includes assessment, treatment and education to patients and family members. Splint* or Orthotic fabrication is completed as indicated.

TRAUMA PROGRAM

Provides specialized, interprofessional rehabilitation services for individuals with post-operative and/or complex orthopedic conditions. The program includes assessment, treatment and education to patients and family members.

HAND & UPPER EXTREMITY PROGRAM

Provides specialized, interprofessional rehabilitation services for individuals diagnosed with dysfunction, disease or trauma to the upper extremity. The program includes assessment, treatment, and education to patients and family members. Splint* fabrication to protect or mobilize joints is completed as indicated.

AUDIOLOGY & HEARING AID CLINIC

Full Hearing Aid Dispensing Services, which include: dispensing and ongoing support of hearing aids, FM Systems, and other Assistive Listening Devices. In addition, hearing aid batteries and other accessories are available for purchase. Hearing Aid Dispensary Services are fee for service.

SPECIALTY PROGRAMS

ADULT SEATING CLINIC

Customized seating solutions are required by many individuals living throughout the Niagara Region who have the most complex physical disabilities. Seating plays a critical role in maintaining an individual's positioning, which in turn maintains a person's health.

AUGMENTATIVE & ALTERNATIVE COMMUNICATION CLINIC (AAC)

The focus of the AAC program is on addressing the communication needs of individuals with severe speech and/or physical impairments through the provision and support of communication systems.

REHAB & WELLNESS CENTRE

Provides a focus on clients whose lives have been affected by various injuries, including injuries resulting from work-related accidents. Additionally our Rehab and Wellness Centre is dedicated to working with the Work Safety Insurance Board, as we currently serve as a WSIB Regional Evaluation Centre and a WSIB Shoulder & Elbow Specialty Clinic.

STEVE LUDZIK CENTRE FOR PARKINSON'S REHAB

Steve Ludzik Centre for Parkinson's Rehab provides Interprofessional care for clients diagnosed with Parkinson's disease. Interventions are offered based on client-driven goals and may be provided in an individual or group setting.

TELEMEDICINE (OTN) PROGRAM

Hotel Dieu Shaver has incorporated nursing support for clients who require access to Medical Specialists via OTN, such as clients with neuromuscular disabilities, including but not limited to Parkinson's disease, ALS and Augmentative and Alternative Communication (AAC) Clinic clients.

MEMORY CLINIC

This program is available to those who are referred by their family physician, as a result of an identified memory concern or if there is a patient's family member who expresses concern related to memory loss. Furthermore, patients are referred by a family physician if there is difficulty managing a case involving dementia.
